

Drug-disjoint (cold) split: each cell = drug-pair group

S = train drugs V = validation-unseen T = test-unseen

- | | |
|---|---|
|  train (S-S) |  test two-unseen (T-T) |
|  validation (one V drug) |  unused (V-V, V-T dropped) |
|  test one-unseen (one T drug) | |
